OTHER DAYS.

If other days could ever come back,
Those other days which swiftly fled,
Would I have warmer held the heart
I know today as cold and dead.

The waves rolled up and touched the sand—
The dull, long reach of yellow sand,
And but the mermaid's singing broke
The summer silence of the land.

The brooding silence, when the sun
Falls level over the ripened field
And to the rounded crimson fruit
The snowy sheen of blossoms yield.

The salt air softly stirred the hair
Above a broad and perfect brow—
I wonder if I love's caress
Smooths back its dusky tendrils now.

And yet withal what matters it?
I held her heart as did the sea,
The shells which carelessly I flung
Upon the wide and shelving lee.

But if those other days come back
I wonder would I fail to hold
The priceless treasure that I lost
So carelessly—a heart of gold.

—Mrs. Geo. Babcock left for Chicago last week. She will go from there to Lake Minnetonka for a visit.

—Mrs. Dr. Brown and daughter, returned from a visit with friends and relatives in the south, the first of last week.

—Mrs. Annie Keever, who has been the guest of acquaintances here, left for her home in Indiana last Wednesday.

We climb to heights of peace through pain,
We thoughtful grow through sorrow's tears,
And he whose life is not in vain,
Must heed the lesson of the years.

—Mrs. W. T. Bartlett and Miss Franbie Draper, who were guests here, left for their home in Hannibal the first of the week.

—Miss Lila Harwood and Miss Price passed through this city yesterday, en route to Sweet Springs from Jefferson City.

—Mrs. L. F. Sheldon will leave for the east next Tuesday. She will visit extensively and no doubt will have an enjoyable visit.

—Mrs. J. M. Clute and children, and Mrs. Geo. Cummings will return from a visit with friends in Ohio next Tuesday morning.

—Mr. John Burke, who has been with Wm. Curran's dry goods emporium, has accepted a position with Messerly & Meuschke.

—Mrs. T. W. Cloney, Miss Isabel Daniel and Miss Eva Gentry returned from a month's visit to Sweet Springs last Wednesday.

—Miss Rosalie Shields, a cultured and handsome young lady of Independence, will be the guest of Miss Isabel Daniel tomorrow. Miss Eva Gentry will also be her guest today.

—Lord Randolph Churchill being asked his opinion of Henry Irving, replied in substance: "I look upon him rather as a curiosity than an actor. On the stage he is Henry Irving; off the stage he is Hamlet."

—Mr. Charles Clark and Miss Lizzie Vansickle were united in marriage at the residence of the bride's parents, corner of Sixth and Osage streets last Thursday night. The wedding was largely attended and a large number of presents were received.

—Dr. J. W. Jackson, wife, son and Miss L. M. North, of this city, were guests at the beach hotel at Galveston, Tex., last week. The hotel is a very fine building having an unbroken ocean view. Dr. Jackson's party will return to this city this evening.

—Mrs. B. G. Wilkerson, who went to Painesville, Ohio, some time ago, to visit relatives, was taken ill shortly after her arrival. She is now in a homeopathic hospital in Cleveland, so as to be under the care of Dr. Boynton, formerly one of the attending physicians of President Garfield. It is hoped by her many friends in this city that she will soon be pronounced convalescent, as she has already improved.

—Col. A. D. Jaynes and party, who went north and northwest on a special car a short time ago, were last heard from at Missoula, Montana. They had expected to go to Portland but were prevented by untimely heat prevailing there. They will spend this week at Yellowstone Park, and after a visit at Brainerd will go to Lake Superior, from there returning to this city about the 1st of September.

—Society is in a state of statu quo as the migratory birds have not yet returned in anything like force from the seaside springs and mountain journeying which Dame Fashion has decreed to be the ultimatum of human happiness. There are weddings and rumors of weddings floating like prisms through the social atmosphere, but as they have not yet assumed shape for the eyes of the reading public the virtue of patience must be a necessity.

—The Hanlon brothers are making extensive preparations for the production of the new spectacular pantomime "Fantasma" whose initial presentation they feel assured will restore the old time soul and essence of true pantomime. As "Fantasma" has already been booked for London, Paris, Berlin and other European cities, which engagements are to follow those made in the United States, the arrangements for its production in this country are being made on that scale of completeness which is rendered imperative by the exacting public of these critical European cities, to whom pantomime in all its perfection of detail is a very familiar recreation. "Fantasma" will probably be one of the attractions at Wood's opera house this coming season.

SOCIAL CLUB.

The paragon social club were handsomely entertained last Thursday evening at the residence of Misses Lottie and Alma Scher at their home on the north side. Vocal and instrumental music whirled away the evening and an unusually pleasant time was the result. About twenty individuals were present.

—The social given by the ladies at the Broadway M. E. church last Tuesday evening was another grand success socially and financially.

GAILEY GAB.

Gailey, Mo., August 16.—There is a social picnic at Dumpville to-day. Suppose everybody will go.

—There was a dance in Gailey Friday night. They kept it up lively till nearly 4 o'clock this morning.

—Messrs. Ludemann, of Sedalia, are painting Bethlehem church. They will complete the job to-day.

—Pop, pop, bang, bang, all day long, the 25th. Plenty of shots but very few chickens. That's not the way the boys talk, however.

—Messrs. Sam White, Jas. Knight, Ed. and Kit Crawford were on the prairie Friday after the birds. They got 'em, but can't show many.

—Mrs. Ellen Donohue, of Dresden, has been visiting in the neighborhood during the week. She left Friday morning for Appleton City, where she will visit her children.

—The protracted meeting at New Bethel still continues. Revs. W. H. Cotton, T. Gill and Wm. Westlake, have been laboring for two weeks, with several additions to the church.

WE WANT TO KNOW.

—Where and when Jim learned to shoot birds?

—When we are all going to another dance, and get church for it?

—When the girls are going to let up on darling Joe?

—If the deacon really thinks she looks very much better at home than abroad?

OSCEOLA.

—The colored population will again celebrate here on the 30th.

—W. H. Cooke and family, of Clinton, are visiting friends in the city.

—W. T. Johnson, an attorney of Kansas City, is attending to court (ing) business here this week.

—Wm. O. Mead received a severe injury upon the head last Wednesday while taking refuge from a storm, by pieces of timber blowing upon him from a partially constructed barn.

—The congressional fight becomes warm. The opponents of Mr. Stone accuse him of underground work, and Mr. Stone's friends point with hatred to the paid emissaries of Mr. Morgan. At the present status there are none of the three candidates who can get the nomination on the first ballot, but Stone can get three of St. Clair's five votes, he will receive the nomination on the first ballot, and should Mr. Morgan get all of St. Clair's votes, he will be nominated on the first ballot; hence there is a great amount of vote being done. The delegate convention will be held here on the 23rd and the nomination convention at Appleton City, on the 25th.

FOR SUNDAY.

Read and Reflect, For it Will Surely Do You Great Good.

Who to-day will carefully consider the immensity of the creation of God, the goodness of His power in maintaining the grandeur and harmony of His boundless empire; the inconceivable length of time through which His works have been carried forward? The true Christian cannot fail to see and witness God in all His wondrous work; the ray of light that shines, and every system of worlds that roll in their immensity, declare God's creative power and existence. Every comfort and blessing of life; every faculty of our being, existence and happiness, comes from God. The measureless worlds and unfathomable abysses of space are shining with His glory. What madness so extreme, blindness so dark and debasing as that of man, who will not see the hand of God in His wondrous world; His infinite wisdom in undertaking the great work of the new creation? Faith looks forward to its progressive steps and final completion. The divine instrumentality for accomplishing this mighty change is the Cross of Christ, and the power, truth and glory of the gospel will bring the perfect order of the heavens, the divine and eternal harmony of God into every soul. Had we some almighty power to cast out the demons of discord and disobedience from this world, what peace, happiness and harmony we might see! We would then do His will; the troubled soul would be at rest; our every fear calmed and sorrow healed in trusting in His glorious Word.

Our individual importance is great in His sight, though we feel how puny we are when we consider the vastness of His creative hand. Poor worms of the dust, glorying in our strength, trying to work discord in the government of the God that made us! The silent sunshine, in one hour, can do more to change the face of the earth than millions of men in a lifetime of toil. The earth may shake with the march of armies, nation against nation and kingdom against kingdom, and day seemingly be turned into night by the cloud of battle, and it may seem to us that universal ruin is over all creation, but our fears are rebuked, and with silent pity the unchanging heavens look down on us. The immensity of worlds is held by that unseen hand which preserves order. No jar, no collision; everything maintaining its relative position; nothing changed; perfect in the creation, and for all time to come. The burning gems set in the infinite dome of the sky by the Builder of Worlds have never changed their position. There they stand from century to century. All earthly things fade and pass away. Human society has been repeatedly changed and revolutionized, yet the tempests of earth have not dimmed their light. They still maintain the same symmetrical order in the measureless region of space; they are countless as the sands on the seashore. Seeing all this and believing in the existence of this Great God, we have only to love Him and be as little children in affection and faith; be like Christ, meek and lowly in heart and life, and God will make us heirs to His kingdom to enjoy that infinite inheritance forever and ever. The uncertainty of life has been fully exemplified in any moment when called to enter the dark shadow of the valley of death with pure and spotless robes, to be gained only by following in the footsteps of our Lord, Jesus Christ.

—The public are too apt to underestimate the dangers of railroad brakemen as a class. Their labors are continuous and severe; the dangers attendant upon their duties greater probably than those that any other class of men have ever been subjected to, not even excepting soldiers, and the pay for their services is very small. Probably the brakeman with his blunt and more emphatic than elegant language, his bronzed face and hands and his toil-stained suit, may not present the appearance of a high-toned dude, but we must remember that from this worthy class have risen the greatest and most distinguished railway managers of the world, and that struggling in their ranks to-day are a very large number of the railway officers of the future.—The Railroad.

A DISHONEST CONDUCTOR BOUNCED.

A conductor on one of the Missouri Pacific trains running into Houston, has been detected by the officials of that road, in dishonest practices and relieved from duty. It seems that the conductor, whose name it is not necessary to give, was in the habit of retaining tickets taken up by him, and instead of punching them and including the same in his daily reports, would place them in the hands of scoundrels and would have them resold for his benefit. In this way it is asserted he succeeded in getting away with the company for about 170 tickets during the month of July, upon which he must have realized a very handsome sum. The fraud was practiced by him to such an extent that it was impossible longer to conceal it from the officials, who laid a trap for him, into which he readily fell, and a few days ago a statement of the charges was handed him, together with the request to step down and out.—Houston (Tex.) Journal.
